MILROY SUFFERS \$65,000 FIRE LOSS IN THE BUSINESS DISTRICT

Blaze Starting Early Today in Fisher Building Spreads Quickly to Adjoining Rooms

INSURANCE THIRD OF LOSS

K. of P. Building, Housing Meek & Spillman Store and Milroy Bank, Totally Destroyed

LODGE SUFFERS HEAVILY

Bank Vault, Supposed to be Fireproof Can't be Unlocked For Several Days Due to Heat

Milroy suffered a \$65,000 fire loss early this morning, which for a time threatened to destroy the entire business section of the town. Before the blaze could be checked it had destroyed the two-story Knights of Pythias building, several offices and a residence.

The total insurance carried will not exceed one third of the loss, and the blaze was an exceedingly serious one for the town from a financial standpoint.

When first discovered by Ed Murphy at 4:30 this morning the blaze was in the Fisher building, and had an appearance of being started from natural gas becoming ignited in some manner.

Mr. Murphy lives in the Milroy Hotel which is almost across the street from the scene of the fire, and gave the alarm. The Fisher building was a frame structure and when first discovered the blaze had gained considerable headway.

This building consisted of several store rooms and a residence of the owner, Ed Fisher. The fire fighters had difficulty in getting Mr. and Mrs. Fisher from the burning building as they are aged people and persisted in attempting to save their household effects, rather than their lives.

The fire spread very rapidly and the K. of P. building which adjoined the Fisher building on the east was also soon in flames.

Schlosser Brothers, an Indianapolis concern, had a cream station in one of the Fisher rooms, and Joe Mills owned a shoe repair shop in another. There was also one vacant room in the Fisher building. Nothing was saved and a total loss resulted.

The fire gained rapid headway after it reached the two story brick building of the K. of P.'s and Meek and Spillman's store the largest department store in the town was soon in flames. The Milroy Bank which was in the same building on the corner was also destroyed.

The 'lodge room' on the second

floor was a total loss and an office of Dr. Lampton was also on this floor which was destroyed.

The greatest loss was that of the K. of P.'s the building alone being valued at \$20,000 with only \$8,000 insurance. The lodge's equipment was also insured for \$1,000.

The Milroy Bank could not estimate their loss today, and a meeting of the directors was being held this afternoon to make plans for the future and to consider the loss of the equipment. The furniture and banking supplies were valued at \$2,500 in their last bank statement published a few weeks ago.

The large vault was supposed to be fireproof and all of the money, bonds and valuables are locked in the vault. Because of the intense heat it will be several days before it can be opened.

The Meek and Spillman general store had a stock of \$16,000 and carried only \$10,000 insurance. This was the biggest store in Milroy and carried a line of general merchandise including groceries and dry goods.

Dr. W. T. Lampton who had his office above the bank suffered a \$2,000 loss and carried \$800 in insurance. The doctor's loss was to his office equipment and a good sized line of drugs and medicines.

About 5:30 this morning the fire looked as if the entire business section would be wiped out, and distress calls were sent to Greensburg and Rushville. The local fire department was told by Mayor Irvin not to respond, because the fire engine would be damaged in making the trip down there. The mayor also stated that it would take 1500 feet of hose to string it from the river and this would leave Rushville short on hose.

Greensburg would gladly have responded but they do not have a steam engine for fighting fires and without that they would not be of any service.

Milroy does not have a steam engine, but uses a hand pump on cisterns which are in the streets, and with this equipment kept the flames from spreading to buildings that were within close range.

Heroic work was displayed by the firemen in saving a residence just north of the bank. This residence is also used as an office by Dr. Houghland.

TO TEACH FARMERS HOW TO KEEP BOOKS

School to Accomodate Fifty Will be Held in Court House, With Specialists to Conduct Work

AID IN MAKING INCOME TAX

Arrangements have been made by the Rush County Farmers' Association to hold a one day book-keeping school in the court house, with a specialist to conduct the work, on Tuesday, January 27, beginning at 10:00 a. m.

The plan of the work is to aid farmers in getting the information necessary to keep a reliable, but simple set of books, which will aid them in making out their income tax, and in studying the laws and possibilities of reducing expenses.

In addition it is probable that the Indiana Federation of Farmers Associations will call on farmers in the near future to show that the labor income of farmers is below that of other industries. It is absolutely necessary that some definite information be available, and this information can be obtained only from those who have kept a careful set of books.

Those who contemplate keeping books will do well to avail themselves of this opportunity of studying the methods.

About 50 farmers can be accommodated. Those desiring to take the course should call at the office in the court house and enroll at once for after the 50 have been enrolled, others will have to be turned away.

STEVENS COMES OUT AGAIN

Prosecutor Will Run For Renomination in May

County Prosecutor Albert C. Stevens has thrown his hat into the ring, and today filed his intentions of being a candidate for renomination on the republican ticket, subject to their primary election, May 4.

John F. Joyce recently filed his intentions for the same office and as time goes on the race in the different county offices seem to tighten. The democrats have not displayed any interest so far, as no one has filed his papers with the county clerk.

HEADS \$150,000 PRINTING CONCERN

Clifford S. Lee Organizes Clifton Press, Incorporated, Which Will Issue Publications

VISITS PARENTS HERE TODAY

Will be Editor of Nationalist Magazine, Devoted to Americanism, Shortly to be Issued

Clifford S. Lee, who spent the day here as the guest of his parents, Mr. and Mrs. Edwin Lee, has organized the Clifton Press, Incorporated, a \$150,000 corporation of Clifton, New Jersey, and will act as president and general manager and editor of the Nationalist magazine, a monthly which will be started soon. The concern will do printing and will publish three other publications in addition to the magazine.

Mr. Lee came from New York to Indiana to attend to business matters in connection with the new concern, and to represent Colonel Charles F. H. Johnson, treasurer of the company, at the meeting of the Americanism commission of the American Legion, which met in Indianapolis Monday. Col. Johnson is the New Jersey member of the commission, and being unable to attend, gave Mr. Lee his proxy.

In addition to the Nationalist magazine, which will oppose all forms of radicalism and will devote itself to straightforward Americanism, the Clifton Press, according to Mr. Lee, will publish the Clifton Journal, a local semi-weekly newspaper; Trotter and Pacer, an eastern turf paper, and Warp and Weft, a monthly cotton trade publication.

Clifton is a city of 22,000 inhabitants, eleven miles out of New York, located midway between Patterson and Passaic. It is the birthplace of Elihu Root and Hobart once candidate for vice-president on the republican ticket.

Mr. Lee will edit the Nationalist magazine, which will be a republican publication and will have associated with him John R. Meader, former editor of "The Common Cause." Mr. Meader is also vice-president of the concern. William M. Duncan, former business manager of newspapers at Atlanta, Memphis and Nashville, is secretary of the company and Col. Johnson, treasurer, Mr. Duncan resigned as New York manager of the Audit Bureau of Circulation to go with the Clifton Press. Col. Johnson, who is a millionaire, had charge of the industrial relations department of the bureau of aircraft production during the war, and is president of the Passaic Board of Trade and vice-president of the New Jersey Chamber of commerce. Col. Johnson is one of the most influential men of the state, being an officer or director in thirty-nine different corporations.

The Nationalist will be printed in English and nineteen foreign languages, according to Mr. Lee, and will endeavor to become a factor in the Americanization of foreigners. It has been endorsed by forty-two republican congressmen and senators, the republican national committee and many prominent business men of the east.

Mr. Lee started in newspaper work on the Daily Republican when it was established about sixteen years ago. From here he went to other fields. Mr. Lee went to

LAND SALES HERE WENT UP IN 1919

Rush County Transactions Amounted to \$3,207,645 in a Total of 767 Deeds Filed in 1919

RECORDER MAKES A REPORT

Also 629 Mortgages Filed at a Total Valuation of \$1,452,581—234 Were on Farms

Land to the extent of \$3,207,645, changed hands in Rush county in the year 1919, according to the annual report that is being compiled by the county recorder, Howard Campbell. The report is made yearly to show a great number of things that has been transacted in the county office.

In all there were 767 deeds recorded, which amounted to the total of \$3,207,645 the amount for the year 1919. Of these deeds 765 included warranty and quit claim deeds, executors, administrators, commissioners and guardians deeds. There was one sheriff's deed and one auditor's deed filed, which made the total of 767 deeds.

There was a total of 629 mortgages filed, at a total amount of \$1,452,581 and 643 satisfactions with an amount of \$1,114,238.

Of the mortgages 234 were on farms and land not listed in cities or towns in the county, and 123 were in towns or cities.

There were also filed with the county recorder in 1919, a total of 214 chattel mortgages, which amounted to \$116,296. There was also 38 liens taken and 20 school fund mortgages.

The satisfactions on 260 farm mortgages amounted to a total of \$837,936, and on 178 town and city properties a satisfaction of \$158,531 was listed.

The report shows also that in 1919 there was one "Farm Name" recorded on the county books.

Every county office is now busy getting its annual report into shape for permanent filing. The recorder's report goes to Charles Kettleborough, director of the state department of statistics, legislative reference bureau, and all county office reports must be filed by the last day of January in each year.

POSITION OFFERED TO EDWARD JACKSON

Candidate For Governor Intimates He Will Accept Appointment as of Secretary of State

ELECTED TO PLACE, QUIT

(By United Press.)

Indianapolis, Ind., Jan. 21.—Official announcement that Edward Jackson of Lafayette has been offered the appointment of secretary of state to succeed William Roach, who died Saturday night, was made by Governor Goodrich today.

It is understood Jackson gave the governor to understand that he will accept the appointment.

Jackson is one of the five republican candidates for governor. His appointment to the office of the secretary of state would mean his withdrawal from the race.

Jackson was elected secretary of the state in 1916. He resigned in November, 1917 after being commissioned captain in the national army following a course at the second officers' training camp at Fort Benjamin Harrison. Mr. Roach was appointed to succeed him.

HAND CAUGHT IN WASHER

Mrs. Bert Mattox sustained a painful injury yesterday when her left hand was caught in an electric washer. It was necessary to amputate part of the forefinger of the left hand.

AGED MAN IS CRITICAL

Joseph Carter, the oldest colored man in the county is seriously ill at the home of his son, Charley Carter in West 4th street. Mr. Carter is 92 years old and for forty years of his life was a slave in the south.

CO-OPERATION IS URGED BY STATE

City and County Authorities Receive Letter From Indiana Federal Prohibition Director

REPRESENTATIVE IS COMING.

Charles J. Orbison Explains Law, Saying Bootlegger and Illicit Distiller Must Go

Letters have been received here by city and county authorities from Charles J. Orbison, federal prohibition director for Indiana, asking their co-operation in the enforcement of the new federal amendment to the constitution prohibiting the manufacture and sale of intoxicating liquor.

The letter explains that a representative of his department would be sent to this city in the near future to confer with the authorities regarding the application of the law. The letter calls attention to the fact that bar signs are no longer permitted and that if any remain, the owners should be notified to remove them at once.

The letters follow the same general lines, although worded differently. The one received by Sheriff E. M. Jones is in part as follows:

As a law enforcing officer in your county, it becomes your business to enforce this law as it has been your business in the past to enforce the state prohibition law. Your duty has only been magnified as the state law is as binding as it was before the federal provision became operative. I am counting on your working in conjunction with the law enforcing officers of the municipalities to enforce all of the prohibition laws, both state and federal.

Whatever may be our personal views regarding the wisdom of writing upon the statute books and in the Constitution a proviso prohibiting the manufacture and sale of intoxicating liquor, it, nevertheless, is our duty, as officers of the state and federal government, to enforce the law as it is written. I am, therefore, appealing to you for your cooperation and support in the matter of law enforcement and to pledge to you on my part the federal government's active support of you in your very laudable undertaking.

With the federal government linked together with the state in suppressing law violations, the "bootlegger" and the illicit distiller will be on the run. I hope to have the pleasure of seeing you personally in the near future and I know that someone connected with my department will see you at no distant date.

REVIVAL TO CLOSE TOMORROW NIGHT

The Rev. W. P. McGarey Will Preach Tonight on Theme, "Rushville's Most Prevalent Sin."

CONVERSIONS MORE THAN 100

"Rushville's Most Prevalent Sin" will be the theme at the revival service tonight at the First United Presbyterian church. Following this on tomorrow night the Rev. W. P. McGarey will bring his farewell message, as he will leave on Friday for his home in Sterling, Kansas.

Despite the exceedingly bad weather, last night's crowd more than filled the auditorium. The solo by Mrs. Wolcott and the talk by Supl. J. H. Scholl were very much enjoyed and the sermon to the high school students was received with close attention.

The decisions made so far at the church and other places where the Rev. Mr. McGarey has spoken, now number over one hundred. These conversions included those for different churches and the record of them will be handed to the pastors of the churches concerned. The people of these churches are most cordially invited to continue their co-operation and get as many people out for the two remaining services as may be possible.

WATSON CONDUCTS TARIFF HEARINGS

His Work as Head of Finance Subcommittee and Other Duties Account For His Illness

FOLLOWS EVERYDAY GRIND

His Long Experience and Specializing on Subject While in House Make Him Invaluable

(Special to the Daily Republican.)

Washington, Jan. 21.—Senator James E. Watson has been having an everyday grind with committee hearings, which accounts for his severe illness that resulted in him being ordered to remain in bed by his physician.

In addition to being a member of the senate interstate commerce committee, which has had in charge the preparation of the railroad bill, he has been conducting hearings on twelve pending tariff bills, acting as chairman of the important finance committee. Heavy work on the federal trade commission investigation, the treaty of peace and the Newberry investigation and all contributed a part in taking up his time.

It has been Senator Watson's custom to reach his office every morning at eight o'clock, spend an hour hurrying through a vast accumulation of mail, devote an hour to receiving visitors, and then at ten enter a committee meeting which occupied his time until six o'clock in the evening. His work with committees has been interrupted only when he went to the senate chamber to answer a roll call.

Invitations to speak pour in on Senator Watson every week—in fact almost every day. He is known throughout the country as one of the republican party's best bets on the stump. He has spoken in just about every state of the union with the result that invitations for return engagements are constantly coming to him. However, his duties as senator prevent him from doing much speaking and he seldom is permitted to accept an invitation. Sometimes he goes to week-end meetings.

He has made an exception in promising to address a McKinley meeting at Canton, Ohio, Jan. 31. He goes there at the invitation of Representative in Congress Roscoe McCulloch, who is preparing to become a candidate for the gubernatorial nomination in that state. Senator Watson has a wide acquaintance among Ohio republicans and enjoys personal popularity with them. Another invitation he has accepted is from the republicans of Minneapolis, who want him for their Lincoln day speaker. A committee of Minnesota republicans came to Washington recently with a request, which almost amounted to a demand, that he speak at their big February meeting.

He is the chairman of a subcommittee of the important finance committee which is conducting hearings on twelve pending tariff bills. Senator Watson has specialized on the tariff question for several years.

COUNCIL ARRANGES TO PAY CONTRACTOR

Month Elapses Since Third Street Was Accepted by City Council—Regular Meeting Held

ONE COUNCILMAN IS ASSENT.

The city council met in regular session last night, and a short business meeting was held. Councilman Scudder was absent and the usual amount of business cut short. The month was up since the acceptance of the Third Street paving, and the amount due the contractor as taken in, was ordered transferred from the city treasurer to the Carthage Bank and Farmers Trust company, which will in turn make payment to the contractor.

The usual claims and bills were allowed, and the meeting adjourned after the regular routine of business had been transacted.

We are authorized to announce the name of Frank L. Catt of Rushville township, as a candidate for Surveyor of Rush county, subject to the decision of the Republican primary election on May 4, 1920.

FOR PROSECUTING ATTORNEY

We are authorized to announce the name of John F. Joyce of Rushville as a candidate for nomination for Prosecuting Attorney of Rush county, subject to the decision of the Republican primary election on May 4, 1920.

Looking For Feathers

The more we hear of this proposition to lend Europe another ship load of money the more objectionable the whole scheme appears.

Europe is not in good condition, we admit. But Europe has land, it has tools and machinery for cultivating that land, and it has the men to use the tools.

Of course, with so many men killed in the war, it might become necessary for a few of the gilded dandies to soil their hands with honest toil in order to secure the necessary production of foodstuffs. But that would do them good—it might even eventually raise them to the status of real men.

Europe wants to feather its nest, but we fear it does not want to restore to manual labor to bring about this much desired result. It prefers that the United States furnish the feathers.

But, somehow, we are forced to the conclusion that we have feathered enough nests on the other side of the Atlantic.

Europe knows there is to be another great war, and wants to set its house in order to meet it. Being short on feathers, our good foreign

BETTER THAN CALOMEL

Thousands Have Discovered
Dr. Edwards' Olive Tablets
Are a Harmless Substitute

Dr. Edwards' Olive Tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. For 17 years he used these tablets (a vegetable compound mixed with olive oil) in his private practice with great success.

They do all the good that calomel does but have no bad after effects. No nausea, no griping, no injury to the stomach or danger from acid foods—yet they stimulate the liver and bowels. Take Dr. Edwards' Olive Tablets when you feel "lousy" and "heavy." Now they clear clouded vision and put up the spirits. 10c and 25c a box.

Sap and Salt

By BERT MOSES

Trouble is the great power that keeps men moving forward.

Many people keep themselves poor trying to get something for nothing.

Just about the time you get rid of a bad corn, a tooth commences to ache.

Some men who seem generous are simply contributing hush-money to ease the conscience.

Keeping your past sins in front of you is a poor way of making you a better man. Forget them!

Hez Heck says: "The new way of combing a girl's hair looks more like a disease than a style."

friends are averse to pursuing the slow process of waiting for them to grow. It is easier to pluck them from Uncle Sam even if Uncle has to turn his pockets inside out in order to accommodate his good friends abroad.

But Uncle's hundred million children can't see it from the same angle. They are distressingly perverse and stubborn.

Then, too, Europe is pained at the volume of foreign trade American manufacturers have built up since the war began. They desire exceedingly to bolster up their own manufacturing interests, and to divert this flow of yellow metal toward their own empty coffers.

But to do this requires money—much money—and the easiest and simplest way is to pluck it from Uncle.

But even Uncle himself is becoming skeptical. He has loaned our dear friends in Europe billions of dollars already, and he can't even collect the interest of the loans. When he will be able to collect the principal, the Lord only knows.

Citizens of the United States are paying enormous income taxes in order to keep the ship of state afloat, and now word comes from Washington that we will have to cut expenses or raise taxes or sell more bonds.

Our great army has flown to the four winds, our navy is almost out of business for lack of men, and our millions of war material has been sold to the French. We are in the position of the juvenile giant who is so heavy and unwieldy he can not even flick the dust from his own shoes.

We have money, yes; but if war breaks loose again we will have dire need for every dollar of it.

Feather Europe's nest again? Nothing doing! Self protection is the first law of nature. Keep those thirty-five billion dollars at home. Drop a few feathers in the Eagle's nest first.

But in all of this mad rush for the presidency, we note with admiration that the proud movie actor is not to be deflected from the glory of his career.

Be careful of your step, son. At current prices it is safer to take a life than to steal an egg.

Measuring your daily wage at the price of butter, how many pounds a day do you earn?

And still, if the reds overturn the government, we can use the other side.

Our Daily Laugh

New and Bright Yarns That
Will Tickle You and Will
Be Relished by Your Friends
When You Repeat Them.

The old town was asleep as of yore when Halliday made his first trip there in fifteen years. He trailed up Main Street. A sign, "Boggs & Company," revived memories. Amanda Boggs had been custodian for some twenty years. Her some time better-half had been on the inactive list, due to jaundice, general debility and fine-cut. His death had been expected for more than twenty years but had never happened. He'd drooled along for many a wearisome summer and winter. Halliday stepped in the store and there was Amanda. Followed that an old time reunion after the preliminary "Neat and natty. Ain't changed a bit. I remember your good mother." Halliday spoke with.

"Aunt, you're huskier and healthier than ever. But, how about your husband?"
"He's still a-livin'. Ain't it aw-ful?"

Old Friends are True Friends

The man, who loves a dog and a pipe, has two staunch friends that never fail him in good luck or in bad. They give all and ask nothing in return. Day by day they become nearer and dearer to him. The man who has not a dog and a pipe has missed two of the greatest things this good old world can give.

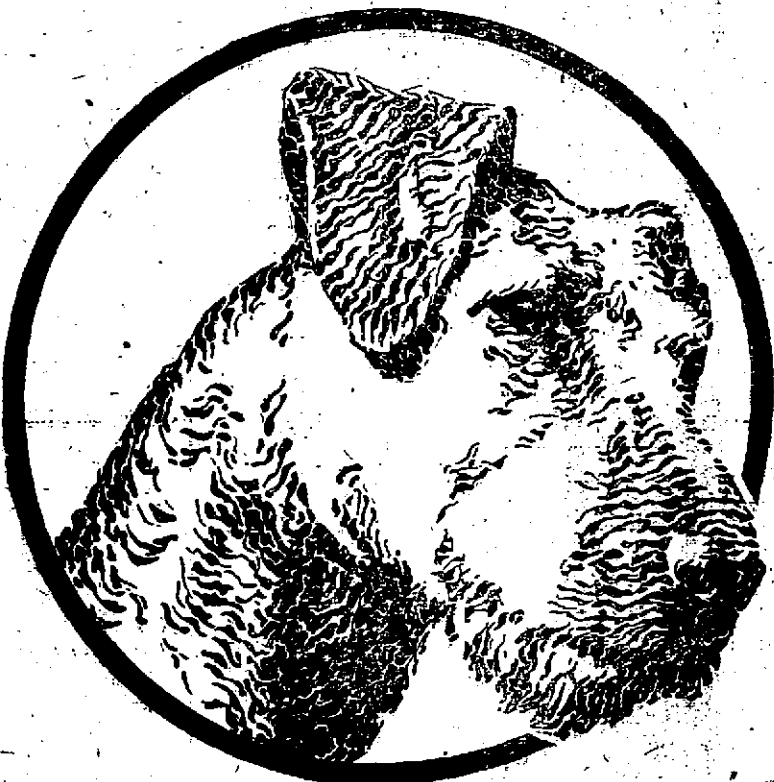

Every man who loves his pipe should know Velvet, the one tobacco that brings out all of a pipe's best and sweetest qualities. Your pipe takes on an added friendliness from Velvet's choice Kentucky leaf aged in the wood to a mellowness that's rich and smooth as cream.

Your pipe takes on a mild sweetness that is Velvet's natural tobacco sweetness. And around you hovers the real tobacco fragrance that all good pipe smokers love.

Never did Velvet Joe say a wiser, truer thing than this:

"Folks say you can't buy friendship. You can buy a dog and a pipe and good old Velvet—and I reckon no man ever had three better friends."

Lightbulb's Tobacco Co.

There's a lot of pipe-loads in every big generous tin of Velvet, and every pipe-load is good tobacco at its best.

WATSON CONDUCTS
TARIFF HEARINGS

Continued from Page One
having had early and valuable experience when a member of the ways and means committee of the house. It was because of his knowledge of the tariff question—a highly important subject to American industry—that he was named as the chairman of the subcommittee to conduct the hearings and recommend the tariffs on a dozen items which are pressing for protection against European products made by cheap foreign labor.

The new American dye industry—it got its start during the war when German dyes were shut off—is one of the industries in need of the protective tariff. Without a protective tariff it soon would be smothered and killed off by Germany flooding the American market with its accumulation of dye products. Most every dye needed has been developed in the new American dye industry. But the industry is young and it must have a protective tariff until it gets firmly established and is vigorous enough to take care of itself. The dyes which the American chem-

ists have developed are said to be equal, and in many cases superior, to the products which this country formerly imported. A republican tariff will save the new American industry from destruction. Associated with Senator Watson on the subcommittee are Senator Curtis of Kansas, and Senator Thomas of Colorado.

H. W. Rhodehamel, chairman of the Indiana section, American Chemical Society, has written to Senator Watson urging protection for the new dye industry.

STOP ITCHING SKIN

Zemo, the Clean, Antiseptic Liquid, Gives Prompt Relief

There is one safe, dependable treatment that relieves itching tumors and that cleanses and soothes the skin. Ask any druggist for a 35c or \$1 bottle of Zemo and apply it as directed. Soon you will find that eruptions, pimples, blackheads, eczema, blotches, ringworms and similar skin troubles will disappear. Zemo, the penetrating, satisfying liquid, is all that is needed. It banishes most skin eruptions, makes the skin soft, smooth and healthy.

ACCUSES SAM GOMPERS

Sterling Charges Him With Courting Favor of Extreme Radicals

Washington, Jan. 21.—Samuel Gompers was charged with courtship of the favor of extreme radicals in opposition to the pending sedition legislation, by Senator Sterling, of South Dakota, author of the senate measure today.

Sterling's reply to the statement issued by Gompers regarding the sedition legislation, declared a number of Gompers' subordinates had been imprisoned for "crime and murder" in recent years.

In Quebec the privilege of practicing law is still denied to women.

MAKE PLANS FOR A COMMUNITY HOUSE

Business Men of Connersville Meet and Discussed the Problem Informally

APPOINTED TWO COMMITTEES

To Investigate Conditions and to Visit Some Other Cities to Get Ideas

Connersville, Ind., Jan. 21.—There has been talk in this city, at least at times, for many months past, of the need of a community house, and a large one, which would house all strictly public bodies here, under one great roof, in a building so handsome, so conveniently that every citizen would have a pride in pointing out to strangers. The talk has grown more serious, week by week, for some time ago. It is interesting, therefore, to learn that the matter was taken up recently. In a meeting called for that purpose in the community room of the Fayette Bank and Trust Building, C. C. Hull was chairman of the meeting when the project came up for consideration, and he placed it before the assemblage as a serious thing, an actual and increasing need, which every one of those present would do well to consider.

The outcome of the meeting was that Mr. Hull was commissioned to appoint two committees, one of which will think of ways and means by which such a community house as Connersville needs could be built. The other will visit some other cities in Michigan and Ohio, where similar things have been accomplished, and study the modus operandi by which each of them achieved its results. Later, it is presumed that these two committees will be called into a conference by a larger meeting, to tell what they have learned. By these steps, it appears, the community house idea is removed from the dusty shelf of things which may or might be taken hold of some day, and is brought down into the living stock-and-trade of Connersville intentions.

That the rising generation of Connersvillians have nothing very attractive to do with themselves when working hours are done is a fact which is plain enough to them, and which needs to be plain to others. The community house, it is believed, would go farther toward solution of the problem than any other single thing.

SPECIAL TRAIN CALLED OFF

Newcastle Plays Here Tonight But Fans Can't Come

Word from Newcastle this afternoon stated that the high school was unable to secure the 200 tickets for the special train which they had intended to run here tonight for the basketball game, and the players and fans will arrive here on the regular train over the Big Four tonight.

The second team from the high school will play New Salem in a curtain raiser promptly at seven-thirty tonight, and the Newcastle-Rushville game will be called immediately after the preliminary game.

JACKSON FARMERS TO MEET

Elmer Porter, president of the Jackson township farmers organization has sent out a call for a meeting on Friday night of this week. All of the Jackson township farmers are urged to be present and the meeting will be called at seven o'clock in the Osborn school house.

Blue Front 115 W. 2nd
A Little Off of Main St.,
But It Pays to Walk

Mrs. O. M. Dale will entertain the members of the Pirate Bridge club tomorrow afternoon at her home in North Main street.

A euchre party will be given in the K. of C. card room in West Second street, Thursday evening. All members of the K. of C. lodge are cordially invited to attend.

Owing to the inclemency of the weather, the meeting of the Loyal Women, of the Main Street Christian church, which was to have been held at the home of Mrs. Dan Matlock last evening, was postponed indefinitely.

Mrs. Fre. Caldwell was hostess for the Wednesday afternoon Bridge club this afternoon at her home in North Morgan street. The guests enjoyed the afternoon playing Bridge and at the close of the games a delicious course luncheon was served.

Mr. and Mrs. O. P. Wamsley entertained with a six o'clock duck dinner last evening at the Seaman Hotel in South Main Street, honoring Perry O'Neal, Robert Humes, Posey Denning and Scott Buell, veterans of the world war. The table was beautifully decorated with dainty place cards and a bouquet of carnations.

Mrs. William Wallace entertained the members of the Ladies Missionary society of the First Presbyterian church yesterday afternoon at her home in North Perkins street. During the business session officers were elected for the coming year as follows: President, Mrs. C. E. Liddle; vice-president, Mrs. John Boyd; secretary, Mrs. Joe Cowing; treasurer, Mrs. Laura Carmichael. Following the business meeting a social hour was enjoyed.

BRITISH TO PREVENT BOLSHEVISM SPREAD

To Send Troops into Caucasus To Stop Radical Movement in Armenia, Turkey and Persia

(By United Press.)
Paris, Jan. 21.—Great Britain plans to send troops into Caucasus to prevent the spread of Bolshevism into Armenia, Turkey, Persia and Mesopotamia, it was reported here today.

The British request to the supreme council yesterday to have France and Italian troops take the place of British units in the allied forces which were previously ordered in various regions where plebiscites were ordered by the peace treaty, was necessitated by the plan to send troops into the Near East, it was said.

The supreme council gave the Jugo-Slavs four days to reconsider their decision, which was announced in a note made public yesterday. In the event the Jugo-Slavs hold fast to their decision to refuse the allied proposal, the terms of the pact of London awarding Italy extensive concessions in the Adriatic, will be appealed.

Former Premier Clemenceau has resigned as president of the supreme council.

2,514 NEW CASES OF "FLU"
Chicago, Ill., Jan. 21.—Industries were feeling the effects of the influenza epidemic today. Many of them were crippled by the loss of many of their employees who are ill with the disease. Two thousand five hundred and fourteen cases were reported yesterday and 36 dead.

BARNETT, GRANT WITNESSES

Say Navy Department Did Not Heed Recommendations For Decorations

(By United Press.)
Washington, Jan. 21.—Major General Barnett, commander of the marine corps, and Vice Admiral Grant, commander of the battleship fleet No. 1, testified today that the recommendations for the awarding of naval decorations have been given little weight by the navy department.

Admiral Grant declared that Thomas Edison had little or nothing to do with the experiment of the submarine detective device and was awarded a distinguished service medal and those men who were responsible for the device received no recognition.

3 ADDITIONS TO CHURCH

A revival is being conducted at the Second M. E. church of this city. Mrs. Luther Page of Greenfield is conducting the services which will continue the remainder of the week. Three additions have been added thus far. The public is cordially invited to attend these meetings, which begin each evening at 7:30 o'clock.

TO HOLD EXCHANGE

Raymond Haley Gains 16 Pounds

Mrs. Vittioe Feels it Her Duty to
Tell How Fine Tanlac is For
Children

"My little nephew had suffered since he was three years old but since he has taken Tanlac he is happy and cheerful again," was the statement made by Mrs. Laura Vittioe in telling a Tanlac representative of the recovery of Raymond Haley, her fourteen year old nephew. Mrs. Vittioe lives at 3316 East Fourteenth St., Kansas City, Mo., and at the death of Raymond's father she adopted him and since that time has been his guardian.

"Raymond had a spell of typhoid fever when he was three years old," continued Mrs. Vittioe, "and ever since that time he has been puny and fretful and was never bright and playful like other boys. He had little or no appetite and what he managed to eat wouldn't digest but would sour and cause so much gas to form that he would be in great distress. He had severe spells of rheumatism and at times he would be confined to his bed for months. Awful headaches would come on him and he would have terrible pains in his stomach and he looked pale and thin. He lost a great deal of time from school and at one time nearly the whole year and he was hardly ever able to play with other boys. We tried every medicine we knew of but none of them did any good and finally he was operated on but even that didn't help him.

"At last we read of Tanlac and what it was doing for other people and we decided to give it a trial. He had not taken half a bottle before he commenced to improve and his appetite began to come back, and by the time he had finished his second bottle he could eat anything he wanted and digest it perfectly. The rheumatism left him entirely and he hasn't had a headache since he started taking Tanlac. His strength and energy came back and he gained fifteen pounds in weight and his cheeks are rosy. This was six months ago that he took Tanlac and since then he hasn't been troubled in any way, hasn't missed a single day from school and he is as bright and cheerful as any boy you ever saw. I am certainly grateful to Tanlac for the good it has done him and I feel that it is my duty to tell mothers that Tanlac is fine for children."

Tanlac is sold in Rushville by F. B. Johnson & Co.; in Milroy by Dallas Copper; in Manilla by Geo. J. Inlow; and Arlington by Mrs. L. T. Davis.—(Adv.)

RECOGNITION OF COPYRIGHT URGED

Pan American Conference Advocates
Establishment of a System of
Laws

WANT INTERNATIONAL AID.

At Present Five Latin American Nations
Have Ratified the Convention—2 More Necessary

Washington, Jan. 21.—Establishment of a system of laws whereby copyrights on trade marks will be recognized in all countries in North and South America, will be advocated here today at the Second Pan American Financial Conference.

At present copyrights of North American countries are not recognized in Latin American countries. According to an arrangement some time ago, it was agreed that when two thirds of the Latin American countries had ratified establishment of such laws, all the other countries would accept it. At present five Latin American nations—Brazil, Uruguay, Paraguay, Ecuador and Bolivia—have ratified the convention. Two more are necessary to make ratification effective. Peru has indicated its willingness to ratify but Argentina has proved the stumbling block. It is hoped to induce its delegates here to bring pressure to secure Argentine's approval.

International co-operation in commerce and finance was urged in a speech by John Bassett Moore, vice-chairman of the International High Commission, who spoke on "The Work of the International High Commission."

The International High Commission is made up of delegates from all American Republics, including the United States and Mexico. It was organized in Buenos Aires in May, 1916, as a result of a trip there by William G. McAdoo, ex-secretary of the treasury. The finance ministers of all countries are members of the Commission.

The conference, which is being held to stimulate trade relations between North and South American countries, is being attended by the leading business men of all the countries represented. Means to restore Latin American exchanges to their normal levels are being taken up, as well as the matter of investigating American capital in Latin American development.

One hundred years ago, in 1820, visitors assembled in Mrs. Willard's seminary for the amazing novelty of hearing a young woman pass an examination in geometry.

Unusual Value—In Tires for Small Cars

Not only is characteristic Goodyear merit conspicuous in Goodyear Tires for small cars but ordinarily the first cost is found to be not greater than that of other tires; often it is actually less.

The combination of unusual value in first cost and very low final cost, of course, is a result of Goodyear experience, expertness and care employed as insistently in the making of 30x3, 30x3½ and 31x4-inch tires as it is in the construction of the famous Goodyear Cord Tires used on the highest-priced automobiles.

For this reason more cars using these small sizes were factory-equipped last year with Goodyear Tires than with any other kind. Get this unusual tire value to enjoy on your Ford, Chevrolet, Dort, Maxwell, or other small car, at the nearest Goodyear Service Station. Get these tires and Goodyear Heavy Tourist Tubes at this station.

30x3½ Goodyear Double-Cure Fabric, All-Weather Tread \$20.00

30x3½ Goodyear Single-Cure Fabric, Anti-Skid Tread \$17.65

Goodyear Heavy Tourist Tubes are thick, strong tubes that reinforce casings properly. Why risk a good casing with a cheap tube? Goodyear Heavy Tourist Tubes cost little more than tubes of less merit. 30x3½ size in water-proof bag \$3.90

SYMONS OF HENRY HAS BILLS READY

Henry County's Representative Prepares Measures For Second Session if it Meets

AN AMERICAN LEGION HOME

He Secured Unanimous Consent at One Day Session For Committee to Investigate Project

Newcastle, Ind., Jan. 21.—Before leaving Indianapolis at the close of the one-day session of the legislature last Friday, Luther Symons of Lewisville, Henry county's representative, had his "blue sky" and Wilbur Wright memorial bills redrawn and in case there is another special session of the legislature, he will be prepared to introduce them at the first opportunity.

Mr. Symons was instrumental in obtaining unanimous consent to a resolution at the special one-day session, naming the ways and means committee of the house as a committee to investigate and formulate a plan to provide a home for the American Legion. He thought it best to have some member of the ways and means committee introduce the resolution and have the question referred to this committee as it will be up to this committee when the bill comes up for passage. Mr. Symons learned that all the members of the committee were favorable to the proposition to provide a suitable memorial for the war veterans and he thought it best to let the initiative be from the committee to insure their unanimous support.

Under this plan it will also be possible to get quick action on the bill when it is introduced. Mr. Symons will be in conference from time to time and it is likely that he will be chosen to introduce the bill. At any rate, he is one of its most ardent supporters.

Mr. Symons stated today that he doubted if the road and tax laws

will be out of the courts in time for action this year.

Mr. Symons also announced a plan of insuring the farmers of a "square deal" at the Indianapolis stock yards. He is in favor of placing the union stock yards at Indianapolis and all commission firm doing business there subject to examination by the state board of accounts and enacting such legislation as will protect the farmer and shipper against extravagant prices for corn and yardage and insure them justice in weights and commissions.

There is considerable agitation at this time among the farmers for a reform at the stock yards, the claim being made that the methods in vogue there cost the farmers of the county thousands of dollars a year. The federation of farmers is considering the placing of a commission firm in the stock yards to look after the interests of the farmers and Mr. Symons believes this plan would help solve the problem.

Women copying clerks were first employed in the public offices in Canada in 1876.

DON'T FUSS WITH MUSTARD PLASTERS!

Musterole Works Without the Blister—Easier, Quicker

There's no sense in mixing a mess of mustard, flour and water when you can easily relieve pain, soreness or stiffness with a little clean, white Musterole.

Musterole is made of pure oil of mustard and other helpful ingredients, combined in the form of the present white ointment. It takes the place of mustard plasters, and will not blister.

Musterole usually gives prompt relief from sore throat, bronchitis, tonsillitis, croup, stiff neck, sciatica, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chafes, frost-bitten feet, colds of the chest (it often prevents pneumonia). 30c and 60c jars. Hospital size \$2.50.

HOW

A HORSE TALKS

If horses could talk, we would get a few of these dumb beasts around us to help sell the "Rushville Special" Spreader. If these dumb beasts could speak the human language, horses would be the best advertisements we have.

A man who thinks anything of his horses, can't help liking this spreader if he will once mount the seat and put his horses in front of him and see them work in the modern three-horse hitch. With this equipment every horse travels without the least side draft, not a tug pulling a bit out of line. Each horse pulls exactly one-third of the load. If horses could talk, this is the spreader they would choose.

When the "Rushville Special" Spreader goes into the field with a big load, there is hardly a bit increased draft on the horses when it begins to spread, and every foot of load that leaves the machine decreases the draft in proportion. Something that cannot be said of any other spreader on the market.

The fact that this spreader will turn in a short circle distributing at full feed a difficult load, proves that the traction is at least 100 per cent in excess of the average requirements. This means scientific handling of difficult material, because, if the draft is on the beater wheel the horses will feel it. The time that a spreader becomes a horse-killer is when it is partly unloaded and the packed condition of the load clogs the beater wheel—something that never happens with our machine.

If horses could talk they would choose this spreader, because the wheels are mounted UNDER the load, and the front and rear wheels are close together. This means light draft—something that horses like.

AMERICAN INDUSTRIES ARE BADLY CRIPPLED

Due to Coal Shortage, American Industries Continue Till Plants Build up a Reserve

Washington, Jan. 21.—Although bituminous coal is being mined at a greater rate than at any time in four years, American industries are more crippled than they have been in recent years, according to governmental reports today.

In some parts of the country steel mills are being forced to close as the result of a coal shortage. The shortage will continue until the manufacturing plants build up a reserve, it was pointed out.

This may take several weeks. A coal shortage was also partly responsible for the condition. This was caused by the coal strike. The railroad officials stated that during the strike it was necessary to send many cars to the far western states with coal from the east and these cars have never been returned.

George Washington shaved himself

ON occasion. One of these occasions was when his faithful servant allowed his hand to slip—whereupon the General arose in his wrath and finished the job himself; for the Father of our Country was very properly fond of a good, clean shave.

And in his simple shaving kit may still be seen his equally simple razors. While their model is many hundred years old, they have never been bettered in left, or shearing width, or right shaving angle on the face.

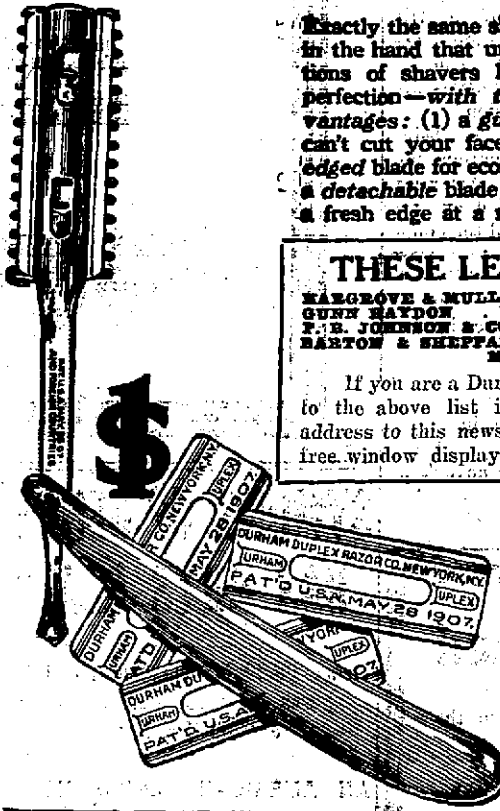

At such times when his old servant failed him, Washington would have appreciated the guarded, two edged blade of the Durham-Duplex because he would have found it nothing more than his own well-loved model made safe.

DURHAM-DUPLEX

A Real Razor—made Safe

Exactly the same shape and balance in the hand that uncounted generations of shavers have brought to perfection—with these extra advantages: (1) a guarded blade that can't cut your face. (2) a double-edged blade for economy's sake. (3) a detachable blade for the luxury of a fresh edge at a moment's notice.

(4) a stroppable blade, so that you don't have to throw good steel away. And it's the longest, strongest, keenest, best-tempered blade on earth. Seven million shavers have found that the Durham-Duplex gives them more shaving mileage than any other safety razor. Get your Durham-Duplex today.

SWAMP-ROOT FOR KIDNEY AILMENTS

There is only one medicine that really stands out pre-eminent as a medicine for curable ailments of the kidneys, liver and bladder. Dr. Kilmor's Swamp-Root stands the highest for the reason that it has proved to be just the remedy needed in thousands upon thousands of distressing cases. Swamp-Root makes friends quickly because its mild and immediate effect is soon realized in most cases. It is a gentle, healing vegetable compound. Start treatment at once. Sold at all drug stores in bottles of two sizes, medium and large.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmor & Co., Rindge, N. Y. for a sample bottle. When writing be sure and mention this paper.

Intestinal & Stomach Worms

are the most common of hogs and pigs and they multiply very fast. It is easy to tell the pig that is loaded with worms. The hair is rough, has little or no appetite, coughs more or less and goes backward every day. Thousands of pigs and hogs die from worms every year. This can all be prevented by feeding ACME WORM BOUNCER from birth to maturity.

A large, dense crowd of people, mostly men in suits, gathered for a formal event. The image is a black and white photograph showing a vast assembly of individuals, likely at a political or social gathering. The perspective is from a slightly elevated position, looking down into the crowd. The people are packed closely together, filling the frame. Many are wearing dark suits and light-colored shirts, typical of formal attire from the mid-20th century. The background is indistinct due to the density of the crowd, but the overall impression is one of a significant public occasion.

Itching, Scratching, Skin Diseases That Burn Like Flames of Fire

Here Is a Sensible Treatment
That Gets Prompt Results.

Eczema and similar skin troubles come from a disordered, impure condition of the blood, and they can only be cured by giving the blood a thorough cleansing, and removing from it all traces of impurity.

This is why S. S. S. has been used so successfully in hundreds of cases of Eczema and other skin

eruptions. This wonderful remedy is without an equal as a blood purifier, being probably the oldest blood medicine on the market. It has been sold by druggists for fifty years. Get a bottle today and begin treatment that will get results. You are invited to write to-day for complete and full advice as to the treatment of your own case. Address, Chief Medical Adviser, Swift Specific Co., Dept. 52, Atlanta, Ga.

MORE HUMIDITY AND LESS FUEL

When the Inside Humidity is Kept
up, The Fuel Will go Much Farther
in Heating

SAVING IN COAL BILLS.

State Board of Health Tells How to
Reduce the High Cost of Coal
Bills in The Home

By J. G. ROYSE

(Of the state board of health)
(Written for United Press.)

Indianapolis, Ind., Jan. 21.—On account of the present coal shortage and the necessity of conserving the supply, any knowledge which will aid the householder in getting the greatest volume of heat and comfort from his coal should be timely.

The average person in heating his house takes into consideration only one of the elements necessary to comfort—heat. The proper humidity of atmosphere is not only just as essential but is also extremely important from a hygiene standpoint. Humidity is entirely a relative matter. One hundred percent humidity means the air contains all the moisture possible at a given temperature.

On a cold day the relative humidity in many homes is less than twenty percent, drier than the air of the desert. All the air in homes is really outside air in the sense that it corresponds in every way except volume to that outside. When this outside air is heated to a temperature of 70 degrees with no addition of vapor its capacity for absorbing water is much increased and it will take it from all objects with which it is in contact. It will take it from furniture which in the process of kiln drying was never brought to such dryness. It will take it from everything in the house containing moisture including the material from which the house was built, it will take it from the skin, from the mucous membrane of the mouth, nose and respiratory tract. It thus causes more or less dryness of the skin, irritation of the throat and make a cough, creating a pre-disposing condition to colds, catarrh, pneumonia and other respiratory trouble.

It will get a great deal of humidity from the body. In extracting this humidity it also extracts heat from the body. Therefore if you keep this humidity up, the same volume of heat will appear warmer. Air at a temperature of 65 degrees and a relative humidity of 70 has a great feeling of warmth and is more comfortable than air at a temperature of 73 with a fifty percent humidity. This will explain the fact that a summer temperature of 60 degrees is entirely comfortable while the ordinary room heated to this temperature feels chilly. A proper humidity of the inside temperature on a cold day will of necessity cause steam on the windows. This cannot be avoided. Keep the humidity up and much less fuel will keep you comfortable.

WHEN THE DAY IS OVER

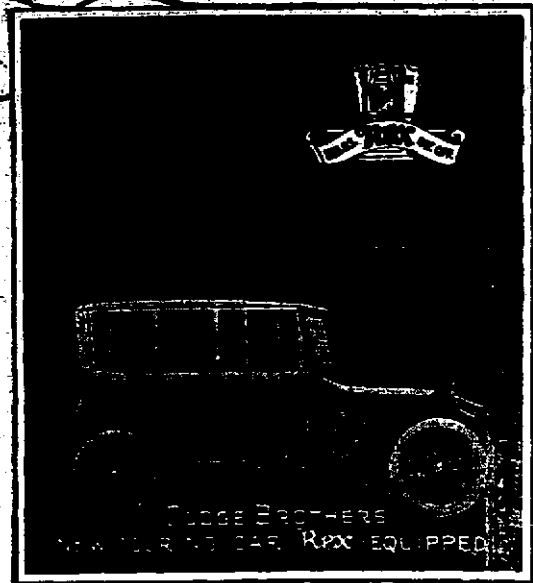

When the household cares and the worries of everyday life have dragged you down, made you unhappy, and there is nothing in life but headache, backache and worry, turn to the right prescription, one gotten up by Dr. Pierce fifty years ago.

NERVOUS—RUN-DOWN PAIN HERE OR THERE?

Kokomo, Ind.—"I can say something for Dr. Pierce's Favorite Prescription. For some time I suffered from nervousness and general run-down condition. I lost my appetite and the doctors did not seem to help me. I had one of Dr. Pierce's Common Sense Medical Advisers in the house and I started to read it. I found that Favorite Prescription was what I needed. It helped me in many ways and built up my system. I regained my appetite and felt better. It gave me the strength to do some work that I had not been able to do for some time previous."—MRS. J. A. McGEE, 821 E. Taylor St.

Lafayette, Ind.—"Several years ago I took Dr. Pierce's Favorite Prescription and it did wonders for me. It is the best medicine I ever found. I was troubled with weakness from which many women suffer. I was down sick. Would have such terrible smothering spells I did not know what to do, and I would have dizzy spells, too. The doctor could not help me. I tried Favorite Prescription and it proved wonderful with me. It built me up and cured me and made me stout. I was in awful condition at the time."—MRS. ELIZABETH TAYLOR, 224 & 5th St.

Kokomo, Ind.—"Dr. Pierce's Favorite Prescription has helped me. I took it when in a delicate condition. I had been in bed much of the time. I was weak. I tried it and I feel much better. I have gained weight. I have my appetite back. I have my strength back. I have my health back. I have my life back. I have my happiness back. I have my peace of mind back. I have my joy back. I have my love back. I have my life back. I have my all back."—MRS. ROY MORRIS, 222 E. Adams St.

CHURCH TO ORGANIZE MINUTE MEN SPEAKERS

Organization to be Made up of Most
Prominent Business Men in
Congregation

CAMPAIGN TO BEGIN FEB. 1

Pittsburgh, Pa., Jan. 21.—One thousand minute men will be organized to speak in the New World Movement in the United Presbyterian churches all over the United States; announces Dr. J. Alvin Orr of the Northside, national chairman of the movement. The organization will be made up of the most prominent business men in the congregations who will be asked to pledge themselves as New World Movement minute men.

They will speak from the pulpits, in Sabbath schools, at prayer meetings and wherever they get the opportunity to present the program of the New World Movement. They will speak four minutes on the objects of the movement and if they exceed this time limit they will be stopped.

The speaking campaign will begin February 1, and will continue until the close of the financial drive in the spring.

Every month there will be special publications issued from which the minute men will get material for their speeches.

MARINE EMBLEM IS CHARM IN TURKEY.

Constantinople, Jan. 21.—The uniform and the globe, eagle and anchor emblem of the United States Marine Corps is a charm in the streets of Constantinople.

During all the time the U. S. S. Galveston has been stationed here not a single marine has been attacked in the streets, although they are sometimes ashore late at night. So far the marines have been uniformly correct in their behavior, and their officers ascribe their immunity from molestation to their reputation as fighters and the "huskiness" of the detachment from the "Galveston."

A curving toothbrush recently invented brushes the inner surface of the teeth as thoroughly as the outside.

Executor's Sale Gravel & School Bonds

Notice is hereby given that the undersigned executor of the estate of Mary F. Gilson, deceased, on
